Measurement
Parents: We are concentrating on measuring <b>capacity</b> and <b>weight</b> using nonstandard units of measure such as cotton balls, Legos, etc. Students will not be responsible for knowing standard units of measure such as pounds, cups, etc. Our focus is measuring with accuracy and compare items of different height, length, weight, and capacity.
<b><u>Around the room challenge</u></b> - You may use any "unit" of measurement. (ex: paperclip, Lego, cube, etc.) If you do not have an item, skip it or choose something different.
